TOPERA, Dec. 4 - Governor Lewelling this afternoon sprung a highly sensational flocument, in the shape of an executive circular addressed to all the boards of metropolitan police commissioners. The letter is very lengthy. After picturing the distress existing in the United States and Europe, it orders the police boards to arrest no tramps on the charges usually brought against this class, namely, riding on freight cars, vagrancy, begging, etc. The governor says that the city ordinances fining tramps and compelling them to work on rock piles is unconstitutional and opposed to the liberties guaranteed by that instrument. He declares that the tramp is arrested and made a "municipal The fines cannot be paid, and the tramps are put on the rock piles and into bull pens. These forms of "slavery are not imposed as a punishment, but solely as a means of collecting debt," and are instruments of torture and compare with the auction block, and should be relegatto the past, no longer to be a disgrace to the cities of Kansas. Continuing, the circular says: "In this

country the monopoly of labor-saving ma-chinery and its devotion to setfish, instead of social, uses have rendered more and more human beings superfluous, until we have a standing army of unemployed. numbering, even in the most prosperous times not less than a million able-todied

Section 571 of the general statutes of 'section 571 of the general statutes of 1889 is a disgraceful reminder of how savage, even in Kansas, have been our treatment of the most unhappy of our human brothers. Under this statute, and city ordinances of similar import, thousands of men, guilty of no crime but that of seeking employment, have languished in the city prisons of Kansas or performed unrequited toil on rock piles as muoicipal the because ignorance of economic constants. slaves, because ignorance of economic con-nitions had made us cruel. The victims have been the poor and humble, for whom the police couris are the courts of sist resort—they cannot give bond and appeal. They have been too poor to litigate with their oppressors, and thus no voice from this under-world of human woe has ever reached the ear of an appellate court. But those who sit in the sent of power are But those who sit in the sent of power are bound by the highest obligation to especially regard the cause of the oppressed and helpiess poor. The first duty of the government is to the wesk. Who needs to be told that the equal protection of the laws does not prival where this human vagrancy law is enforced? It separates men into two distinct classes, differentiated as those who are penniless and those who are not, and declares the former criminals. Only the latter are entitled to the liberty guaranteed by the

constitution.

"I have noticed in police court reports that sleeping in bax cars is among the varieties of this beinous crime of being poor. ricties of this beinous crime of being poor. Some police judges have usurped sovereign power not permitted to the highest functionaries of the states or of the mation, and the victums of industrial conditions have been peremptorily ordered to leave town. The right to go from place to place in search of employment, or even in obedience to a mere whim, is part of that personal liber y guaranteed by the constitution to every human being on American soil. I am aware of no power of legislatures or city conneils to deny a man the right to seek happiness in his own way, so long as he harms no other, rich or poor, but let simple poverty cease to be a crime. The rock pile and the buil pen have only been read to constitute of the seek happiness in his own way. right to seek happiness in his own way, so long as he harms no other, rich or poor; but let simple poverty cease to be a crime. The rock pile and the buil pen have only been used in cases of the degraded, friendless and poor, and are relics of the departed auction block era. Cease to disgrace the cities of Kansas, and let the dawn of Christmas day find the rock pile, the buil pen and the crime of being homeless and poor obsolete in all cities of Kansas governed by the metropolitan police act. It is confidently expected that their own regard for constitutional liberty and their humane impulses will induce the police commissioners to carry out the spirit as well as the letter of the foregoing suggestions."

About two mouths ago the board called

up all the officers of the institution and in-formed them that harmony had to prevail, and furthermore that Superintendent Carter had the entire control of the management of the institution and the hiring and discharging of employes would be upon bis recommendation. The rupture, however, between Carter and Dixon and wife seer, between Carter and Dixon and wife had grown to almost open warfare, and again Carter triumphs by getting them discharged. Carter is after the removal of others, but the board is still investigating. Republican members Kelly and Yos of the board said that the educational part of the institution was moving on smoothly, but the differences between the superin-tendent, sieward and mattern had become tendent, steward and matron had become irreconciliable, and someone had to go in order to preserve the reputation of the in-

uitution.

and her lectures will not be fit for ratnesis."

Judge and Mrs. Dixon are liked by all in this city with whom they have come in contact. The Republican and Democratic papers of this city have been scoring the superintendent and his management severely and defending them. Judge Dixon says he will prefer criminal charges against Carter before leaving this city and may bring civil action against Mrs. Lease and that the end is not yet by any means. THE NORTH-SOUTH SCHEME.

THE NORTH-SOUTH SCHEME.

TOPEKA, Kan., Dec. 4.—The north and south railroad convention, for the purpose of devising ways and means of building a railroad from the British possessions to the gulf of Mexico, meets tomorrow. Delegates will be present from Kansas, the two Dakotas, Nebraska, Iowa, Indian Territory, Texas and possibly Missouri and Arkansas. It is proposed by the originators of the scheme to build, if possible, the road out of the public revenues of the states which the road will traverse, and the principal object of the convention is to hear the report of a committee on the constitutionality and feasibility of this proposition.

THE STOCK MARKET.

NEW YORK, Dec. 4 .- The stock market issue was regarded as a bear point, and helped to depreciate values. London, too, was in the market as a seller of St. Paul, Atonson, Union Pacific and Louisville and Nashvias, and the west sent in a number of selling orders, which added to the volume of stock offered by the bears, who renewed operations at the opening. The general market opened a fraction lower, and early declined 1, to 2 per cent. Be-fore 11 o'clock the pressure to sell was re-moved and an improvement, ranging from to 2 per cent, was recorded. From this on railies and reactions followed each other in quick succession. Later the desi-ings became steadier and the close was fairly firm. The losses were 1/2 to 11/4 per cent, the latter in Western Union.
